## "Bonkers about Beaks" Lab

1. My type of beak was: \_\_\_\_\_

2. Of the following types of food sources,  
I think that my beak will be the best at picking up:  
\_\_\_\_\_

3. Fill-in the data table below with the number of items  
in each food source collected by your beak and others.

	<b>Tweezers</b>	<b>Tongs</b>	<b>Ladle</b>	<b>Clothes Pen</b>
Sunflower Seeds				
Marshmallows				
Fennel Seeds				
Marbles				

4. Conclusion:  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

*In the continent Sciencaria, birds are found with beaks that are similar to tweezers, tongs, ladles, and clothes pens. On this continent, the food sources of sunflower seeds and marbles are quickly declining due to over population.*

5. Explain the short-term effects of the above scenario on the bird populations we studied today.
